

Meduri Farms, Inc. was founded in 1984 and has since grown to become a premier supplier of specialty dried fruits to food manufacturers around the world. Our operations are located 60 miles southwest of Portland in Oregon's agriculturally fertile Willamette Valley.

Our Products

We offer an extensive line of specialty dried fruits to food companies in the United States and in 20 different countries around the world. Our products are used as ingredients in packaged snacks, confectionery products, baked goods, cereals, energy and nutrition bars, readyto-eat salads, and many other specialty foods. We offer conventional and organic fruits (certified organic by Oregon Tilth); natural and infused fruits; whole, sliced, diced, and crumbled fruits; kosher certified fruits; flavored and unflavored fruits. If you do not see something you are looking for, please contact us. We welcome the opportunity to work with our customers to develop new and unique products to meet the needs of an ever-changing marketplace.

Our Operations

We are a vertically integrated company. We own/operate hundreds of acres of fields and orchards, an IQF processing

plant, infusion and drying facilities, and a packaging and warehousing facility – all of which are located in Oregon's Willamette Valley.

Our Expertise

We have over 28 years of experience in fruit infusion and dehydration which enables us to produce products of consistently high quality as well as continuously work with our customers to produce new, specialty fruit products.

Our Quality

Our commitment to quality is evident throughout all stages of our manufacturing process. We are a third party audited manufacturer and we employ a comprehensive HACCP program. We monitor our operations routinely to ensure compliance as well as to identify ongoing opportunities for quality and safety improvements. We work closely with our growers in the fields and orchards as well as with all of our suppliers to ensure that our quality requirements are met starting with the raw materials that we use. Our strict guidelines and focused commitment ensure that our products are of the highest quality and meet all customer specifications. We are very proud of our quality commitment and our proven performance. We will continue to work hard to earn the high regard of our customers.

Kosher Status: All products listed above are Kosher certified by the Orthodox Union

Shelf Life: All products listed above have a 12 month shelf life if stored in cool and dry conditions (55-70 degrees F)

Pack Size:

All products listed above are packaged in bulk and are sold in the following case sizes:

- 10 lbs. (144 cases/pallet)
- 20 lbs. (72 cases/pallet)
- 10 kgs. (100 cases/pallet)

Useful Resources:

- US Apple Association (www.usapple.org)
- Washington Apple Commission (www.bestapples.com)
- USDA (www.usda.gov)

Apples contain Vitamin C, fiber, and flavonoids such as quercetin that act as antioxidants which, according to scientific research, help to prevent DNA damage and may reduce the risk of colon, prostate, lung, and breast cancer.

Research also suggests that apple consumption may help to prevent heart disease and aid in weight loss and cholesterol control.

Harvest Schedule: Southern hemisphere = March / April / May • Northern hemisphere = Aug / Sept / Oct / Nov

				•		•			•		
January	February	March	April	May	June	July	August	September	October	November	December

- The first commercial apple orchards were established in eastern Washington in 1889.
 National Apple Month is promoted in the U.S. market each year from September through November.

Useful Resources:

- North American Blueberry Council (www.blueberry.org)
- Oregon Blueberry Commission (www.oregonblueberry.com)
- Wild Blueberry Association of North America (www.wildblueberries.com)

Based on data from the USDA Human Nutrition Research Center on Aging (Boston, MA), blueberries are among the fruits with the highest antioxidant activity. Antioxidants are thought to help protect the body against the damaging effects of free radicals and the chronic diseases associated with the aging process. Blueberries contain many naturally occurring antioxidants such as Vitamins C and E. Blueberries also contain anthocyanins and phenolics that can also act as antioxidants.

Harvest Schedule: Southern hemisphere = Jan / Feb / Mar • Northern hemisphere = June / July / Aug / Sept

January	February	March	April	May	June	July	August	September	October	November	December

- Blueberries are native to North America.North America is the world's leading blueberry producer & accounts for almost 90% of world production.
